SUMMARY

Designer and front-end developer with 15 years' experience delivering great web and mobile experiences. Experience in private and public sector organizations. Highly effective in client-side performance optimization, SharePoint branding, and responsive mobile design.

PROFESSIONAL EXPERIENCE

UX/UI Design Team Lead - NC Dept. of Transportation
2011 – Today

Leading 8 designers and front-end devs in building public facing, internal, and extranet SharePoint sites and mobile experiences.

- Design lead on NCDOT.gov and statewide DMV applications, serving millions of citizens.
- Reduced custom form and app development needs by building in SharePoint and teaching internal clients to do the same.
- Designed and built page layouts, masterpages, and JavaScript for intranet and extranet.

User Experience Team Lead - Atlantic BT
2010 – 2011

- Produced user stories, personas, wireframes, and storyboards.
- Moved internal process towards user-centered design for complex sites and applications.
- Worked 1-on-1 with developers to improve application layouts and fix usability issues.

Front End Dev and Designer - NC Dept. of Transportation
2008 – 2010

Web design, graphics/UI, and JavaScript development. Interface design for internal portal and web applications.

- Page load-time optimization by eliminating legacy scripts, unused CSS files and simplifying interactivity with jQuery.
- Redesigned public-facing home page to highlight content and features based on visitor analytics data.
- Created NCDOT Mobile site with jQuery Mobile and client side rendering of XML feeds.

Web Designer - News & Observer Publishing Company
2007 – 2008

Web design and front-end development for Newsobserver.com and Triangle.com with a focus on SEO and cross-browser compatibility.

- Matched 3rd party vendor sites to internal own brand with CSS.
- Built flexible HTML Email templates for marketing teams.
- Banner ad design, including rich media ads using Flash.

Web Systems Specialist - Premier Insurance Co. of Mass.
2003 – 2007
